Terms of Sale

Prices in this catalog cancel all previous quotations.

All stock is of A-1 quality and true to name.

While we exercise the utmost care to have our stock true to name, we give no warranty, express or implied, as to crop, and will not be responsible for results, other than to replace stock not true to name.

Bulbs found to be untrue to name should be returned, and we will replace the number so returned free of charge.

Payment must accompany the order or be received by us before stock is shipped. We will accept unused United States Postage Stamps up to the value of \$2.00.

Plants will be sent by Express or Parcel Post, charges collect.

All orders will be sent out as soon as possible or as per instructions, and will be acknowledged.

Madam Chereau

HEMEROCALLIS

The Hemerocallis is a very satisfactory perennial, their Lily-like flowers are of wonderful coloring, from the palest yellow to the deepest golden orange, pink, yellow, mahogany and the deepest wine color. They grow from four to six feet tall, and are very hardy, grow in nearly every soil, in sun and part shade, produce a large number of flowers like Lilies, all summer to late fall. No perennial grows as easily as the Hemerocallis.

This list is of the newer hybrids and they are a great improvement over the older varieties.

	Each	100
Aline Russell. Bright glancing red with yellow blotch in center; very pretty ...	\$3.00

GLADIOLUS, Picardy10	4.00

Russell Lupines

MONTBRETIAS

Very decorative hardy bulbous plants of elegant growth, producing freely in August, September and October, graceful spikes of gorgeously colored flowers of the greatest value for cutting, lasting long in water and mixing well with all kinds of foliage. They grow freely in any ordinary flower border, but prefer a sunny situation. As pot plants they are very attractive. They can be planted from early until late in spring. They multiply fast, but if left over winter they should have a little mulching. They should be planted 4 to 6 inches apart and three inches deep in nearly any kind of well drained soil. 250 at 1000 rate; 25 at 100 rate.

	Doz.	100	1000
Aurora. Very large, flat, star-shaped flowers, with broad petals of great substance, bright golden orange suffused and shaded darker maroon blotches in center. One of the latest in blossom. 3 ft.	\$1.00	\$ 6.00	\$50.00

Vesuvius. Bright vermilion; very showy; late flowering. 2½ ft.	1.00	5.50	50.00
Mixed Varieties. Very choice50	3.50	30.00

New Earlham Varieties

These are the magnificent NEW MONTBRETIAS which have attracted so much attention for some years past at the R. H. S. Show in late summer and during autumn. They are a great advance on most of the older varieties, being generally taller and more robust in growth, while the flowers are of greater size and beauty, some of them measuring 3 to 4 inches in diameter. They make first class border plants, and are of great decorative value for cutting.

	Doz.	100	1000
Apricot Queen. Rich golden apricot. One of the first in blossom; very sturdy grower. 3 ft.	\$1.75	\$10.00	\$90.00
Citronella. Rich canary-yellow, star-shaped flowers of heavy texture, with small, crimson blotch in center; robust grower. 3½ ft.	2.00	12.00	100.00
